

Diana Leveryte

Product Designer

I am a strategic thinker who goes beyond the realms of aesthetic design and user experience. My approach integrates a comprehensive understanding of overall objectives and strategies, ensuring a harmonious alignment throughout the entire design process.

RELEVANT WORK EXPERIENCE

Product Designer

Klaveness Digital | Full-time | Aug 2022 - Dec 2023

I was working on continuously improving the user experience and interface for the SaaS product CargoValue - a supply chain management solution for companies transporting raw materials. Besides working with the business stream team, I was also closely working with the marketing team and contributing a lot to improving design system.

UX UI Designer

MEDvisus | Part-time | Jul 2020 - Jul 2022

MEDvisus is a medical startup in Lithuania. I was responsible for both - user experience and visual identity across the web. It has recently changed its name to doctometer.

UX UI & Graphic Designer

Freelance | Oct 2020 - Jul 2022

I worked with various clients including SoftDent software development company in Lithuania, UAB "Autofortas motors", A. Virbickiene's farm "Sodo Roze", EV'o baldai, Garderobe Gutten, Gaardene Langs Fjorden, Grønsand Gjestegård in Norway, etc.

UX UI Designer

Corner Case Technologies | Contract | May 2021 - Dec 2021

I worked on different projects with Corner Case Technologies, such as:
Creating one-page designs for three case studies for the company;
Creating UX and UI for the new property listing platform in Malta - achieved seamless user experience and pleasant interface;
Redesigned Corner Case Technologies website that better represents who they are and what they do.
